

Med Universe AB Cookie Policy

Introduction

This cookie policy applies to the MedUniverse Services offered by Med Universe AB (MedUniverse). By using our services, you hereby agree to our cookie policy and thus allow MedUniverse to store cookies on your device. This policy seeks to explain how MedUniverse uses cookies and the choices that you have.

What are cookies?

As is common practice with almost all professional websites, the MedUniverse Services use cookies. Cookies are tiny files that are downloaded to your device, to improve your user experience and to provide you with accurate information and results.

Why do we use cookies?

Cookies allow us to improve the services that MedUniverse offer to you, providing you with a more pleasant experience. The cookies used may change from time to time as we improve our services, the cookies used differ from each MedUniverse Service:

Third-party cookies:

On our landing page, we use cookies provided by trusted third-parties. MedUniverse uses an analytics solution to help us understand how you use the services, thus allowing us to be able to help us improve your experience. These cookies may track things such as how much time you spend on our services and the different pages that you visit within our services.

Site features and Services:

On our client page, we use cookies to help us track the answers that you have selected, so that in the unexpected event you get disconnected from the internet, you would be able to continue the same patient case without losing your previous responses.

Authentication:

If you are an administrator using the MedUniverse Services, we use cookies on our administration page to validate your credentials and determine when you are logged in, so that you would continue to remain logged in as you access our platform, making it convenient for you to access our services.

Disabling cookies

You can prevent the setting of cookies on your browser (Please refer to your individual browser's help section for guidance).

Please be aware that the disabling of cookies may result in the disabling of certain functions and features on the services, which have already been mentioned in this policy. To maximise your experience with our services, we recommended that you accept the cookie policy, and the cookies that we use.

Contact

Should you have any inquiries about our cookie policy, you may contact us at: support@meduniverse.com.
